# 60kWh Energy Storage Container for Emergency Relief in Moldova

How does the EU support Moldova's energy system?

So far, the EU has already provided EUR240 million in direct budget support to Moldova's energy system from 2021 to 2024 to help the most vulnerable people. In the 2023-2024 heating season, more than 750 000 households have benefited from compensation through the EU-supported Energy Vulnerability Reduction Fund (EVRF).

What does the EU energy support package mean for Moldova?

More specifically, a more comprehensive EU energy support package will aim to mitigate the consequences of the crisis and to diminish the pressure on energy prices while laying the groundwork for long-term energy stability and resilience in Moldova. It will build on Moldova's Growth Plan which is being finalised.

Background
