
A4 battery cabinet battery line size

What is a -4 battery plate BP2?

The -4 Battery Plate BP2 covers the Main Power Supply and the batteries in the cabinet. Only one is required per cabinet BP2-4 unless an AA cabinet is used (no battery compartment). "D" sized cabinet with solid door. Solid door option available on all sizes in black or red.

What are the safety storage cabinets for lithium-ion batteries?

Safety storage cabinets for passive or active storage of lithium-ion batteries according to EN 14470-1 and EN 1363-1 with a fire resistance of 90 minutes (type 90) -- fire protection from the outside-in and from the inside-out.

Do I need a bp2-4 battery plate?

For each cabinet required, order one "DR" door and one "SBB" backbox. The BP2-4 battery plate is required for each cabinet assembly that mounts batteries and/or a power supply in the lower position of the cabinet. The optional trim ring is an attractive "picture frame"-style black metal ring.

How do I choose a battery storage cabinet?

No matter what safety level you choose, all cabinets offer these key safety features: If you only wish to store batteries in the cabinet, choose the STORE version. If you intend to charge (active storage) batteries directly in the cabinet, then choose the CHARGE version.
