# Communication Huawei outdoor base station

What is Huawei base station backhaul microwave?

Based on leading wireless, transmission, and datacom technologies, Huawei base station backhaul microwave solution provides fiber-level broadband wireless backhaul capabilities, ultra-low latency, fully modular architecture design, and co-site integration with wireless networks.

What is DBS3900 dual-mode base station?

DBS3900 Dual-Mode Base Station is the fourth generation base station developed by Huawei. It features a multi-mode modular design and supports three working modes: GSM mode, GSM+UMTS dual mode, and UMTS mode through configuration of different software. In addition, the DBS3900 supports smooth evolution to the Long-Term Evolution (LTE).

What is Huawei's voice core network?

Through voice core networks, Huawei provides a multimedia communications platform that supports multiple services and multiple access modes for customers from governments and large enterprises.

What is coordinated delivery of base stations & microwave devices?

Coordinated delivery of base stations and microwave devices supports fast base station deployment and service provisioning. 10 Gbit/s to-site large broadband backhaul, TDM/IP multi-service interfaces, 50 microsecond ultra-low latency, meeting 5G-oriented base station backhaul requirements.

HUAWEI 5G remote radio solution Outdoor Base Station Huawei Technologies Huawei 5G remote radio solution is a high-power and ultra-wideband telecom equipment which provides a ...

Huawei ITS1000M outdoor communication cabinet base station communication high-speed ETC toll system dedicated Self-contained air condition Lead time: We have a lot of stock, but we ...

DBS3900 Dual-Mode Base Station is the fourth generation base station developed by Huawei. It features a multi-mode modular design and supports three working modes: GSM ...

High-Quality Construction: The HW F01D2000 Outdoor Base Station Communication Cabinet is built to withstand harsh outdoor environments, ensuring reliable performance and extended ...

This document describes the scenario characteristics, network planning solution, and network construction standards in Wi-Fi 6 outdoor scenarios, providing network planning ...

Micro base stations are an important part of the mobile backhaul solution. Micro base stations provide network access anytime and anywhere, and therefore they can provide ...

Based on leading wireless, transmission, and datacom technologies, Huawei base station backhaul microwave solution provides fiber-level broadband wireless backhaul ...

Optimize your network with cutting-edge Huawei base station that enhances connectivity, boosts efficiency, and ensures reliable communication across vast distances.
