
Construction of Brussels energy storage container project

Why is battery storage important for Belgium's energy transition?

Upon completion of the second 400MWh phase by the end of 2025, the entire installation will be providing clean, stable power for about 96,000 homes and helping stabilize Belgium's power grid. Battery storage is one of the most vital, yet too often overlooked, pieces of the energy transition jigsaw," said Moritz Rolf, Sungrow Europe Vice President.

Where is the largest battery energy storage system in Europe?

The largest battery energy storage system in mainland Europe has gone live in Belgium, as Sungrow and ENGIE completed the first 400MWh phase of the 200MW/800MWh Vilvoorde project. Project: ENGIE Vilvoorde Battery Energy Storage System Capacity: 200MW /800MWh (400MWh Phase 1 online) Location: Vilvoorde, Belgium

What is the D-Stor battery storage project in Belgium?

A digital illustration of the D-STOR battery storage project in Belgium. Image: BSTOR. Project owners BSTOR and Energy Solutions Group have started building separate BESS projects totalling 440MWh of capacity in Belgium, following financial close, both of which will use Tesla Megapacks.

Does Engie have a Bess project in Belgium?

Engie is also developing two other BESS projects in Belgium which already have permits in place, a 100-MW/400-MWh project in Kallo and a 80-MW/320-MWh battery in Drogenbos. The company targets 10 GW of battery capacity globally by 2030. At the end of 2023, it had 1.3 GW of battery capacity in operation and 3.6 GW secured under development.

NHOA Energy will deliver the storage system, designed to enhance grid stability Kallo, 14 May 2025 - NHOA Energy, the global provider of utility-scale energy storage ...

A digital illustration of the D-STOR battery storage project in Belgium. Image: BSTOR. Project owners BSTOR and Energy Solutions Group have started building separate ...

As of November 22 2025, both phases of the largest battery storage system in Europe have been completed and with the second phase awaiting commissioning.. The company is also building ...

The project marks a significant new milestone in expanding the collaboration between NHOA Energy and ENGIE, as it follows the ongoing construction of the 400 MWh ...

NHOA Energy will deliver an 80 MW/320 MWh NHEXUS battery system at ENGIE's Drogenbos station near Brussels under a 15-year contract. The 88-container, four-hour BESS ...

French electric utility Engie SA (EPA:ENGI) has launched construction of a 200-MW/800-MWh battery energy storage system (BESS) at its Vilvoorde site on the outskirts of ...

ENGIE and NHOA have confirmed a partnership to build a 320 MWh battery energy storage system (BESS) at Drogenbos, Brussels. This project is ENGIE's third battery storage ...

NHOA Energy has secured a major contract from ENGIE for the supply, commissioning and long-term maintenance of a 80 MW / 320 MWh Battery Energy Storage ...

Project Overview Scheduled to commence in June 2024, the project aims for completion by early 2026.

With a capacity of 2 x 100 MW and an energy storage of 800 MWh, ...
