# Fixed-type agreement for photovoltaic containers used in schools

What are the different types of solar panel agreements & proposals?

There are different types of solar panel agreements and proposals available. The one you use will depend on a few different factors. These factors include whether you lease or buy solar panels and whether the contract is for a home, business, or even a large development. A power purchase agreement or PPA is similar to a solar lease agreement.

What are standardised solar contracts?

Standardised contracts include: Power Purchase Agreement, Implementation Agreement, O&M Agreement, Supply Agreement, Installation Agreement and Finance Facility Term Sheet. These are complemented by the Implementation Guidelines. Open Solar Contracts review phase is now over.

How will a school authority get a solar PV system?

Invited School Authorities will be provided with funding approval from the Department of Education to enter a contract following a competitive public procurement process for the provision of a solar PV system. This system will be designed, installed and commissioned by a contractor on the SEAI Non-Domestic Micro-Generator (NDMG) Company list.

What should a solar panel contract include?

Your solar panels' contract should estimate how much energy will be produced and what savings the client can expect. This section of the agreement should clearly outline how the system's performance will be monitored and what guarantees are given. Solar power has many benefits for businesses and commercial properties, such as
