# How much does a waterproof solar container cost in Cape Town

How much does a solar system cost in Western Cape?

With Eskom's recent 15% tariff hike and load shedding still disrupting daily life, over 23,000 Western Cape homes installed solar systems last quarter alone. But how much should you actually expect to pay in 2025? A typical 5kW system now costs between R120,000-R220,000 installed.

Can you save money with solar systems in Cape Town?

Yes, you can save a lot of money with solar systems in Cape Town. Initially, you have to drop a couple of thousands to get the system installed, especially if it needs to power your entire property. However, it becomes cost-effective in the end when you don't have a massive electricity bill and you're not affected by load-shedding in Cape Town.

Do solar panels increase resale value in Cape Town?

Property Value Increase: Homes with solar installations have higher resale value. Energy Independence: Protection against rising Eskom tariffs and load shedding. The cost of solar installation in Cape Town depends on various factors, including system size, battery storage, and installation complexity.

Should you invest in solar energy in Cape Town?
