# Huawei Energy Storage Cooperation Project

How will Huawei & Keppel collaborate?

The collaboration will see Huawei and Keppel jointly explore designing and developing innovative PV and BESS solutions tailored for identified projects including the interconnected power grids across the ASEAN region, low-carbon data centres and industrial parks, and digital energy management for hybrid energy systems.

How many employees does Huawei have?

Huawei has 207,000 employees and operates in over 170 countries and regions, serving more than three billion people around the world. We are committed to bringing digital to every person, home and organization for a fully connected, intelligent world.

Why is energy storage important?

Ms Cindy Lim, CEO of Keppel's Infrastructure Division said, "Energy storage is essential to overcoming the intermittency of renewable energy systems."
