# Middle East Group Energy Storage Project

Is wind energy a business opportunity in the Middle East?

While solar has become a popular avenue for companies in the Middle East due to its solar yield and reliability, wind energy is also becoming an opportunity for business growth. ACWA Power and Envision Energy are developing a 1.1 GW wind farm in Egypt's Suez Gulf region, which has the highest wind potential in the country.

Will Egypt's first large-scale solar project be a Bess project?

Egypt's Upper Qena region will soon encompass the country's first large-scale hybrid solar and BESS project.

What is a 300MW solar plant & 320MWh storage facility?

Located in Aswan, this 300MW solar plant and 320MWh storage facility is designed to feed directly into the national grid and bolster energy access in the region. The project's technical highlights include high-efficiency PV modules, advanced inverters, and a scalable BESS that enables the plant to respond quickly to changes in demand.

Who is the largest solar developer in Egypt?

Scatecentered the Egyptian market in 2015 with 380MW operational, and it has grown to become the largest solar developer in the country. The Obelisk solar plant will feature high-efficiency monocrystalline silicon panels mounted on single-axis trackers, maximising exposure to the sun throughout the day.

As September 2025 draws to a close, the Middle East's renewable energy storage sector is charging ahead with groundbreaking announcements, financial closes, and ...

ACWA Power and Bapco Energies have announced a Joint Development Agreement (JDA) to develop a solar power plant integrated with large-scale battery energy ...

Until recently, large-scale energy storage was barely a consideration in the Middle East, where fossil fuels have long dominated power generation. With renewable energy ...

Abu Dhabi Future Energy Company PJSC - Masdar, a global clean energy leader, today announced the start of commercial operations at its battery energy storage system ...

Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. The UAE had 118MW of ...

Co-located with the extremely well renowned Middle East Energy Show, join us for the inaugural Energy Storage Middle East Summit in Dubai, April 2026, as we bring our world ...

The strategic partnership spans solar and wind energy, advancing the Middle East's transition to green energy. SHANGHAI, April 22, 2025 /PRNewswire/ -- Shanghai ...

By leveraging partnerships across Asia and the Middle East, Masdar is positioning Abu Dhabi as a hub for sustainable energy solutions tailored to the AI-driven global economy. ...

SHANGHAI-- Shanghai Electric (SEHK:2727, SSE:601727) signed agreements with Saudi Arabia's Abu Dhabi Future Energy (Masdar) for a 2GW solar power project and with ...

---

The launch of this 2.5GW grid-scale energy storage project is a significant step in Saudi Arabia's energy storage development blueprint. It not only provides strong momentum ...

Explore 10 renewable energy projects in the Middle East, showcasing solar, wind, and battery storage advancements set for 2025. Read more here.

On January 17, CATL and Masdar, the United Arab Emirates' clean energy powerhouse, announced a partnership for the world's first large-scale "round the clock" giga ...

The Battery & Energy Storage sector at Middle East Energy will be your gateway to the region's fastest-growing energy technology market. This dynamic sector represents one of ...

To date, the most popular way to store excess energy has been pumped storage hydropower plants, but battery energy storage systems (BESS) and thermal storage in the ...
