
Moldova household energy storage European standard

How does the EU support Moldova's energy system?

So far, the EU has already provided EUR240 million in direct budget support to Moldova's energy system from 2021 to 2024 to help the most vulnerable people. In the 2023-2024 heating season, more than 750 000 households have benefited from compensation through the EU-supported Energy Vulnerability Reduction Fund (EVRF).

How does Moldova share energy data?

Moldova shares energy data through five annual International Energy Agency (IEA)/Eurostat/UN Economic Commission for Europe (UNECE) joint questionnaires.

What is Moldova's energy policy?

Moldova's energy policy focuses on improving integration in regional markets, strengthening energy security, improving compliance with EU directives, increasing electricity generation capacity and promoting energy efficiency and renewable energy.

What is Moldova's energy consumption?

Transport sector is the second-largest energy consumer (around 0.7 Mtoe) and the main driver in oil consumption growth. Renewables represent 20% of Moldova's energy mix, consisting almost fully of solid biofuels (19% in 2018). 6% of electricity generation comes from renewable sources (hydro, wind, solar PV).
