
Montenegro on land use for energy storage projects

Is Montenegro launching its first battery energy storage tender?

Montenegro's Elektroprivreda Crne Gore (EPCG) has upped the ante for its first battery energy storage tender. In a pioneering move for state-owned utilities in the Balkans, Montenegro's largest power utility, EPCG, is planning to launch a large-scale, battery energy storage procurement exercise by the end of 2024.

Why did Montenegro not issue energy permits?

Montenegro's Ministry of Economy did not plan to issue energy permits in its Energy Licensing Plan for 2019 because the country is already close to reaching its national target of 33 percent of produced energy coming from renewable energy sources (RES) in final energy consumption. The passage does not provide information on why Montenegro did not issue permits for other reasons.

Will Kapino Polje install a 5 MW battery energy storage system?

The utility has also decided to install a 5 MWh battery energy storage system alongside its proposed Kapino Polje solar power plant, which would have 5 MW of installed capacity.

Will EPCG deliver 185 MWh of battery energy storage capacity?

In September, EPCG said it was looking to deliver 185 MWh of battery energy storage capacity across four locations. Its stated goal was to use the existing infrastructure for connection to the grid.

Montenegro's state-owned power utility, EPCG, has initiated the preparation of a feasibility study and project design for the procurement of battery energy storage systems ...

Montenegrin firm Nu Energy and Investment said it has signed a memorandum of understanding with China's Cospowers Technology to cooperate on battery energy storage ...

In the western US, the land-use implications of solar panel installations vary by region and system design, with an average capacity-based land-use efficiency of 24.7 ...

December 17 (SeeNews) - Abu Dhabi-based renewable energy company Masdar is interested in developing solar projects in Montenegro, including floating PV capacities and battery energy ...
