# Philippines Cebu Power Storage System

Is Aboitiz Power Building a hybrid battery energy storage system in Cebu?

MANILA, Philippines -- Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan Economic Zone in Cebu. Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas.

Will Bess be the first large-scale energy storage system in Central Visayas?

Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas. MANILA, Philippines -- Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan Economic Zone in Cebu.

Where is Aboitiz Power Building a hybrid battery energy storage system?

Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system project within the Mactan Economic Zone in Cebu.

What is a hybrid energy storage system in Central Visayas?

Considered one of the first large-scale energy storage systems in Central Visayas, the hybrid BESS will provide ancillary services by storing surplus electricity and releasing it to the grid when needed to help stabilize power supply.

Aboitiz Power Corp., through subsidiary East Asia Utilities Corp. (EAUC), has begun construction of a 30-megawatt hybrid Battery Energy Storage System (BESS) inside ...

METRO MANILA, Philippines -- Meralco PowerGen Corp. (MGen) announced on Monday it plans to construct a 49-megawatt (MW) standalone Battery Energy Storage System ...

Aboitiz Power Corporation is set to develop a 30-megawatt hybrid battery energy storage system (BESS) within the Mactan Economic Zone, located in Cebu, Philstar Global ...

"Battery energy storage will be critical in managing variability in supply and demand, particularly as we integrate more renewable energy into the system." The Cebu facility is the ...
