# Price Comparison of 120kW Folding Container Water Plant Equipment

How can a containerized water treatment system help a large-scale reverse osmosis plant?

Take the difficulty out of large-scale reverse osmosis plants with containerized water treatment systems. By choosing pre-designed, module-sized plants, fully assembled in standard 20-ft and 40-ft containers with the option for a 10-ft as well, the complexity and construction of building water purification systems are no longer necessary.

What is a containerized water purification system?

By choosing pre-designed, module-sized plants, fully assembled in standard 20-ft and 40-ft containers with the option for a 10-ft as well, the complexity and construction of building water purification systems are no longer necessary. Containerized water treatment systems are shipped out to where the potable water is needed.

What is a containerized water treatment system?

An advantageous aspect of containerized solutions is its function as a mobile water treatment system for different sites once a task is completed. These systems are made to be flexible and durable for use in any setting, and come equipped with many options. Some of the aspects that our mobile water treatment systems are designed to address include:

What is a mobile water treatment container?

These mobile systems are installed inside a seaworthy 20 or 40 ft containers or in combination to form complete systems with advanced water treatment and purification technologies. Those mobile treatment containers units come with insulation, diamond flooring, LED lighting, climate control and service hatches.

ANYDA has rich experience in offering quality 120 kw 50 hp air cooled water chiller. Should you're in need of high quality and durable equipment for sale, please be free to contact ...
