## Resort purchases 150-foot solar-powered shipping containers

Can shipping containers and solar power be used as portable energy solutions?

The mobility of shipping containers and solar power presents opportunities for portable energy solutions. Mobile power stations can be created by equipping containers with solar panels, batteries, and inverters. These stations can be deployed for temporary events, construction sites, or emergency power needs.

Why do solar panels need shipping containers?

Shipping containers offer a robust and versatile platform for solar panels, making them ideal for mobile and remote power solutions. Their durability ensures that the solar panels remain secure and efficient in various conditions. Senior Solar Installer
