
Solar cell module export

How did Indian solar module and cell exports perform in Q1?

Indian solar module and cell exports increased 26.1% quarter-over-quarter (QoQ) to \$267.6 million (~INR23.1 billion) in the first quarter (Q1) of 2025 from \$212.2 million (~INR17.92 billion), according to recent data published by the Department of Commerce.

Which country exports the most solar cells in Q1 2025?

Solar exports in the quarter were dominated by photovoltaic modules, which accounted for 98.7% of the total shipments, while solar cells made up the remaining 1.3%. The U.S. was the primary destination for Indian solar cell and module exports, accounting for 99.5% of the total in Q1 2025.

How many solar cells did China Export in 2024?

Chinese cell and module exports grew in 2024, according to customs data. Image: Trina Solar. China exported 7.79 billion solar cells in 2024, a year-on-year increase of 38.2%, according to the latest date from Chinese customs.

Which country exports the most PV modules in FY2024?

es higher compared with FY2023. Although India exported more than 29% of its PV module production in FY2024, the majority came from the three largest domestic PV manufacturers - Waaree Energies, Adani Solar and Vikram Solar - each of which exported more than half of its ann

Solar cell and solar wafer exports from China increased significantly during the first half of the year, according to analysis by London-based think tank Ember Energy. Figures from ...

The U.S. was the primary destination for Indian solar cell and module exports, accounting for 99.5% of the total in Q1 2025. India imported \$1.3 billion (~INR112.8 billion) worth ...

The market is concentrated among a few key players. The top five solar cell manufacturers--Waaree Energies, Adani Solar, Vikram Solar, REC Solar, and Rayzon ...

China's PV exports remain robust, with solar-cell shipments surging 73% year-on-year in the first half of the year. Examples of Agreements in Force: Regional Comprehensive ...

Chinese cell and module exports grew in 2024, according to customs data. Image: Trina Solar. China exported 7.79 billion solar cells in 2024, a year-on-year increase of 38.2%, ...

China's total module exports from January to July 2025 reached 148.6 GW, down 2% YoY from 151.48 GW. In July 2025, the top five single-country importers of Chinese ...

China's solar module exports fell 8% YoY in Q1 2025, amid market oversupply Africa was the only region with annual growth, rising 39% YoY during the reporting quarter ...

India's demand for solar cells sees exports of the product from China increase by over 70% in the first half of 2025, doubling to 40% of all solar products as solar panel exports ...
