
South Asia s largest battery energy storage

Where is India's largest battery energy storage system located?

New Delhi: In a significant leap towards green energy and uninterrupted power supply, Delhi's Power minister Ashish Sood Thursday inaugurated India's first commercially approved and South Asia's largest utility-scale standalone Battery Energy Storage System (BESS) at the 33/11 kV Kilokri substation in South Delhi.

What is India's largest battery-inverter power system?

Minister Sood called the project a "historic milestone" for both Delhi and India's energy sector, setting a new benchmark in regulatory and technological progress. Developed with support from IndiGrid, GEAPP, and TERI, the system is described as South Asia's largest standalone battery-inverter power setup.

What is India's first utility-scale energy storage installation?

The project, inaugurated by Delhi Power Minister Ashish Sood, is hailed as India's first commercially approved utility-scale energy storage installation. Installed at the...

What are the benefits of advanced energy storage system?

The advanced energy storage system brings several benefits, including improved grid reliability, better power purchase efficiency, and seamless integration with renewable energy sources. Additionally, it aims to reduce network overloading and implement effective peak shaving strategies.

New Delhi: In a significant leap towards green energy and uninterrupted power supply, Delhi's Power minister Ashish Sood Thursday inaugurated India's first commercially ...

The 100MW Southeast Asia's largest BESS project in Sabah demonstrates Malaysia's grid readiness, advancing energy roadmap, reducing diesel reliance, enabling ...

It is the largest utility-scale system in South Asia and India's first commercially approved energy storage system. The 40 MWh system enhances grid stability, reduces peak ...

[Australia; 8 December 2025] - Vena Energy, the renewable energy arm of Vena Group and a major green energy solutions provider across the Asia-Pacific region, has commenced ...

Delhi marked a major leap in urban energy infrastructure with the inauguration of a 20-MW (40 MWh) Battery Energy Storage System (BESS) at Kilokari, deemed the "largest" ...

The 20-MW (40 MWh) BESS installed at the BRPL (BSES Rajdhani Power Limited) substation is also India's "first commercially approved" utility-scale energy storage ...

A 500 MWh Battery Energy Storage System (BESS)--the largest in South Asia--was officially inaugurated in Delhi this week, marking a significant step toward ...

Delhi Power Minister Ashish Sood reviewed the operational 20 MW/40 MWh Battery Energy Storage System (BESS) at Kilokri, South Asia 's largest standalone utility-scale system. The ...

NEW DELHI | 8 May, 2025 -- The GEAPP Leadership Council (GLC) today officially announced the launch of India's first utility-scale, standalone Battery Energy Storage System (BESS) ...

From renewables to innovative energy and urban solutions, we play our part in creating a sustainable and

low-carbon future across Asia and the world.

The inauguration of South Asia's largest battery energy storage system at Kilokari marks a significant milestone in the region's journey towards sustainable energy. This project ...

India has taken a significant step towards embracing advanced energy technologies with the launch of its first commercially approved and South Asia's largest Battery ...
