
Supplier of 20-foot folding containers for airports

Why should you choose a foldable container?

The foldable container is movable with crane or forklift hence better accessibility. Installation and dismantling is also very fast and can be constructed within 25 minutes. The insulation material used to construct the container also provides good sound and heat insulation.

What is a 20ft flat rack container?

The 20ft Flat Rack Container is a specialised container for the storage and transportation of goods with unique dimensions that cannot fit inside a standard container. The end walls fold down flat, meaning the empty units can be shipped together more efficiently. Available in: 20ft and 40ft sizes.

Can a foldable container be used as a prefabricated building?

Using a foldable container as a Prefabricated Building for temporary site office/accommodation has a huge advantage of convenience and space saving. Compared with normal site office construction, there is cost saving for time, labor, transportation and warehousing convenience.

What sizes are available for a flatbed container?

The end walls fold down flat, meaning the empty units can be shipped together more efficiently. Available in: 20ft and 40ft sizes. We also offer platform (flatbed) containers in 20ft and 40ft
