
The largest energy storage project in the Democratic Republic of Congo

What does Kamoacopper's 30 MW solar+storage project mean for Africa?

Kamoacopper's landmark 30 MW solar+storage project in DRC sets new standard for clean energy in African mining, cutting emissions and powering Africa's largest copper mine.

What does Kamoacopper & crossboundary energy have in common?

Kamoacopper S.A. and CrossBoundary Energy have signed a power purchase agreement to provide a 30 MW baseload renewable energy supply to Kamoacopper-Kakula Copper mining complex in DRC. The renewable energy system will include a 222 MWp solar PV system and a 123 MVA/526 MWh battery energy storage system, offsetting significant fuel generator usage.

Why is Kamoacopper launching a solar project?

Auguy Bakome, Kamoacopper Project Manager, said the solar project is a key milestone in delivering clean, reliable energy to Kamoacopper. "With advanced solar and battery systems, we're boosting energy resilience, cutting emissions and advancing sustainable mining."

Will Ivanhoe Mines boost hydroelectric power in Kamoacopper-Kakula copper complex?

Ivanhoe Mines has secured a significant boost in hydroelectric power for the Kamoacopper-Kakula Copper Complex in the DRC, which is now receiving 70 MW from the national grid, up from 40 MW earlier in the year.

The Democratic Republic of the Congo (DRC) intends to conditionally reduce its greenhouse gas (GHG) emissions by at least 21% by 2030. While the DRC has historically been a low emitter, ...

The plant is expected to produce 300,000 MWh of clean energy per year. Additionally, the project is significant in demonstrating that baseload renewable energy from ...

4. ELECTRICITY DEMAND AND SUPPLY SITUATION IN DRC The Democratic Republic of Congo "DRC" is a big country in the heart of Africa with an area of 2,345,000 km² ...

Kamoacopper S.A. has made a significant stride towards sustainable mining by signing a transformative power purchase agreement (PPA) with CrossBoundary Energy. This ...

Overview Chinese companies control 72% of the cobalt and copper mines in the Democratic Republic of Congo (DRC), a country that produces over 70% of the world's cobalt ...

Kamoacopper S.A. and CrossBoundary Energy have signed a power purchase agreement (PPA) to provide baseload renewable energy to the Kamoacopper-Kakula Copper mining ...

Key Figures & Findings: Kamoacopper, the operator of Africa's largest and fastest-growing copper mine, has signed a landmark baseload solar power agreement with ...

Africa's Biggest Copper Mine Goes Solar Kamoacopper's landmark 30 MW solar+storage project in DRC sets new standard for clean energy in African mining, cutting emissions and powering ...

3 April 2025, Kolwezi, The Democratic Republic of Congo -- Kamoacopper S.A. and CrossBoundary Energy have signed a power purchase agreement (PPA) to provide baseload ...

This long-term program is a multiphase approach that will help the Democratic Republic of Congo (DRC) lay the foundations for the sustainable development of Inga ...

A power purchase agreement (PPA) has been signed to supply dispatchable renewable baseload energy to one of the world's largest copper mines, located in the ...

DRC : 19 MWp of solar and 18 MVA of batteries secure power supply for a major mining site In the Democratic Republic of Congo, a major mining site has taken a significant ...
