# UK Mobile Energy Storage Container Fast Charging

What is Charge Qube?

Chris Hazell, CEO of Fellten, says: "With its robust, adaptable design, Charge Qube is the definitive solution for businesses looking to future-proof their energy infrastructure, reduce emissions, and embrace the benefits of sustainable energy storage and high-performance EV charging.

What are the benefits of CCS DC fast charging?

Energy storage only: Providing flexible, off-grid power solutions. CCS DC fast charging: Featuring dual 240kW CCS chargers, suitable for high-speed public and commercial EV charging. Sustainable innovation: Utilises second-life EV battery packs, extending their lifespan by up to 25 years while reducing carbon footprint and costs.

How many EVs can a Fellten Charge Qube charge?

Fellten offers the Charge Qube in three variants: an energy storage-only unit provides off-grid power solutions; a Type 2 AC charging version is aimed at fleet users and capable of charging up to 12 EVs simultaneously at a rate of 7kW per-port.

What are the different types of energy storage options?

Scalable, Modular Energy Storage: Configurations range from 150kWh to 450kWh, with daisy-chaining options for extended capacity. Energy Storage Only - Providing flexible, off-grid power solutions. CCS DC Fast Charging - Featuring dual 150kW CCS chargers, suitable for high-speed public and commercial EV charging.

A modular mobile battery energy storage system (BESS) and EV charging solution has launched in the UK for businesses, fleets and infrastructure projects. Charge Qube is an ...

A modular mobile battery energy storage system (BESS) and EV charging solution has launched in the UK for businesses, fleets and infrastructure projects. Housed in a 10-foot ...

Its Type-2 AC charging version offers up to five satellite stalls equipped with twin chargers. It provides scalable energy storage from 150kWh to 450kWh per unit and supports ...

The Charge Qube provides scalable energy storage from 150kWh to 450kWh per-unit and supports both AC and DC fast charging. A larger 20-foot container option with up to a ...

Charge Qube provides scalable energy storage from 150kWh to 450kWh per unit and supports both AC and DC fast charging. A larger 20-foot container option offering up to ...

The Charge Qube is a rapidly-deployable, modular mobile battery energy storage system (BESS) that repurposes second-life batteries and ISO containers. "The Charge Qube ...

With machinery working on battery energy storage in compliance with electrification norms, there is an increasing need for a reliable and efficient fast charger. Providing a full ...

Fellten has unveiled the Charge Qube - a mobile energy storage and EV charging system built for rapid deployment. Housed in a standard 10-foot ISO container and powered ...

The Mobile Energy Storage Truck, is a cutting-edge solution in the field of energy storage. With a large capacity of 2 MWh, this vehicle offers ample storage to meet the ...
