
Uninterruptible power supply production in Tonga

How did the oirep project impact Tonga?

The project achieved its proposed impact, in terms of helping Tonga reduce its dependence on imported fossil fuel for power generation with OIREP assets estimated to have reduced diesel usage by 0.5 million litres annually. Central to the project outcome was the provision of on-grid and off-grid generation solar power at reduced cost.

Why did oirep work with Tonga Power Limited?

OIREP's on-grid work was always a matter of laying the foundations for further investment in renewables and enjoyed the ease of working through one implementing partner - Tonga Power Limited - who were incentivised to help ensure the program succeeded given they will manage all on-grid assets post-project.

Can Australia help secure Tonga's outer island energy needs?

Australia also has a long history of engagement in relation to helping secure Tonga's outer island energy needs. In the early 2000s, Australia funded the Ha'apai Outer Islands Electrification project (HOIEP), which involved the installation of diesel-powered generators and electrical reticulation on four islands in the Ha'apai group.

How many people have access to electricity in Tonga?

This means that little more than 30,000 people are spread across 35 islands, presenting acute issues in terms of the provision of modern infrastructure. At OIREP commencement, the ADB estimated that 89% of all households across Tonga had access to electricity.

Tonga is making tangible progress toward its renewable energy targets with the rollout of solar-powered mini-grid systems across its outer islands, in a bold move to reduce its ...

Additional notes: Capacity per capita and public investments SDGs only apply to developing areas. Energy self-sufficiency has been defined as total primary energy production divided by ...

TPL's Renewable Plants Tonga Power Limited is continuously expanding its Renewable Energy Portfolio, through the introduction of solar generation and most recently Tonga's first ever large ...

SunContainer Innovations - In regions like Tonga, where uninterruptible power supply is critical for both daily life and economic stability, Battery Energy Storage Systems (BESS) paired with ...

The future of sustainable energy in Tonga looks brighter as the Validation Meeting for the National Certificate on Sustainable Energy for Energy Efficiency Level 3 was held at the ...

Planning a solar factory in Tonga? Learn to navigate grid instability and design a resilient facility to protect your investment from costly power outages.

It also strengthens Tonga's social contract with remote island dwelling populations, given the economic and social opportunities that improved access to power provides. The ...

Solo provider: Tonga Power Limited (connecting all of Tonga). Looking after all the energy grids in Tonga. With diesel generators, supplying 91% of its overall grid.
