
Victoria New Energy Station Energy Storage

What are Victoria's energy storage goals?

It is worth noting that Victoria has several energy storage targets in place, including having at least 2.6GW of capacity by 2030, with this to be increased to at least 6.3GW by 2035. Eku Energy is an energy storage development platform that was launched through the Macquarie Asset Management-owned Green Investment Group (GIG) in late 2022.

What is the Wooreen energy storage system?

The utility-scale battery storage facility will add reliability to Victoria's energy supply while supporting the growth of renewable energy across the state. EnergyAustralia achieved financial close for the Wooreen Energy Storage System on 20th February 2025. Construction will now commence on the four-hour, 350 MW Wooreen energy storage system.

When will the Wooreen energy storage system be completed?

EnergyAustralia achieved financial close for the Wooreen Energy Storage System on 20th February 2025. Construction will now commence on the four-hour, 350 MW Wooreen energy storage system. Once completed in 2027, the system will be capable of powering 230,000 homes over a four-hour period before needing to be recharged.

Where will EnergyAustralia's new gas-fired power station be located?

The project will be located adjacent to EnergyAustralia's Jeeralang gas-fired power station at Hazelwood North in the Latrobe Valley, chosen for its land availability and proximity to the existing power grid.

The Melbourne Renewable Energy Hub (MREH) officially begins operations as Australia's largest battery storage system. The AUD 1.1 billion project features 444 Tesla ...

NEWS: A massive new \$450 million Tesla Megapack battery energy storage system is now operational in Victoria, Australia. It's the biggest completed battery project on ...

The Australian arm of Malaysian engineering group Gamuda has been tapped by renewables developer Yanara to deliver a 360 MW solar farm and 600 MWh battery energy ...

The Victoria government in Australia has approved a 300MW/1,200MWh battery energy storage system (BESS) in Gippsland and a 332MW solar PV power plant in the state's ...

One of Australia's biggest battery energy storage projects has powered up with renewables developer Equis Australia confirming that the 600 MW/1.6 GWh Melbourne ...

Australia activates 1.6 GWh energy storage facility with 444 Tesla Megapacks The Melbourne Renewable Energy Hub can power up to 200,000 homes during evening peak ...

Victoria's clean energy transition is accelerating with the approval of a \$453 million Battery Energy Storage System (BESS) in north-east Victoria, backed by leading Chinese firm ...

Victoria, Australia, is making strides in renewable energy with the recent commencement of construction on the SEC Renewable Energy Park, a groundbreaking ...

Melbourne will be home to one of Australia's largest grid-scale BESS (battery energy storage systems) as part of a new renewable energy hub in the city's west. Delivered ...

Latrobe Valley, Victoria - EnergyAustralia has today marked a major milestone with the official turning of the sod for the 350 MW Wooreen Energy Storage System (WESS) in ...
